

# Fairy Tale Journal - A.E.I.O.U!

Name: Jack

We can understand our thinking more when we look at our actions and emotions.

## WHAT HAPPENED?

It started with stealing the bean. i told myself it wasn't really stealing because she had dropped it - but it was. One choice lead to the next, and it became easier and easier to be thoughtless and selfish.

## A. E. I. O. U

### ACTION

I stole from the witch, giant, villagers and lied to mum.

### EMOTION

People probably felt confused, upset, cheated. Mum did.

I felt powerful and clever and rich!

### IMPACT

The giant couldn't get Ben to sleep.

The villagers were short of money.

My mum was upset and didn't trust me anymore.

I might have messed up the Witch's potion making

Someone else might have got blamed instead of me.

### OUTCOME

I had to clean up the giant's castle and say 'sorry'.

I'm hoping the villagers discover we didn't return and took their belongings back. I feel bad about that.

Lovely Daisy ended up going home with the witch.

### UNDERSTANDING

I now understand that stealing hurts people. I don't see everyone's situations and I can mess up life for them.

And I need to be trustworthy for mum to trust me. It was a hard lesson, but I am ready to be a more thoughtful person.
